

Technical Data

Maxol Premium HD 30

Description:

This solvent-refined motor oil is good resistant against aging and has a high viscosity index. Moreover, it contains additives that prohibit oxidation and corrosion.

Performance Level:

API SB/CA		

Application:

Suitable for lubricating systems under moderate loads, like bearings of pumping stations, for gear boxes under light service conditions and for circulating lubricating systems.

Typical Characteristics:

Density at 15°C, kg/l	0,893
Viscosity 40 °C, mm ² /s	102,00
Viscosity 100 °C, mm²/s	11,50
Viscosity Index	98
Flash Point COC, °C	244
Pour Point, °C	-18
Sulphate Ash, %	0,15

Important:

Always observe the manufacturers specifications when selecting products. Maxol Lubricants reserve the right to change this product specification without notice.
