

CARBON MONOXIDE ALARM WITH DIGITAL DISPLAY

BATTERY-POWERED | MODEL K5DCO

BATTERY-POWERED CARBON MONOXIDE ALARM WITH DIGITAL DISPLAY AND 10-YEAR SENSOR

Overview & Key Features

Lightweight battery-powered carbon monoxide (CO) alarm provides long-term detection against the dangers of deadly carbon monoxide and provides continuous monitoring of CO levels. The 10-year sensor lasts longer than many other CO alarms.

- Proprietary Kidde electrochemical CO sensor
- Continuous monitoring of carbon monoxide
- Green, amber and red LED's indicate alarm status
- End-of-life warning alerts user to replace alarm after 10 years
- Digital display clearly shows levels of carbon monoxide
- Peak level display allows the highest CO level recorded between 11-999ppm to be displayed
- Test and reset button to enable regular testing of alarm function
- Battery operated – 2 x AA alkaline batteries supplied as standard
- Minimum 3-year battery life
- 7-year manufacturer's warranty

Technical Specifications

General

Sensor Type:	Electrochemical
Primary Power Supply:	2 x AA batteries (supplied)
Battery Life:	3-years
Sound Output Level:	85dB (A) at 3 metres (minimum)
Mounting Options:	Wall-mount or free-standing (ideal for travel)
End of Life Warning:	Alerts user to replace after a minimum 10 years
Operating Temperature Range:	-10°C to 40°C
Humidity Range:	Up to 90% RH (non-condensing)
Storage and Transport:	-20°C to 60°C, 5% to 95% RH (non-condensing)

Weights and Dimensions

Alarm Dimensions:	127 x 73 x 39mm
Alarm Weight (excluding batteries):	118g
Case Quantity:	6 units

Certifications/Approvals

BS EN 50291-1:2018
Manufactured to ISO9001 Standard

Warranty

7-year manufacturer's warranty
