

KITCHEN FIRE BLANKET

ESSENTIAL LINE | PART CODE KFB1212

COMPACT, EVERYDAY PROTECTION
FOR COMMON KITCHEN EMERGENCIES

Product Overview

Compact fire blanket designed for quick response to small, contained cooking fires. Suitable for domestic kitchens and everyday cooking environments where use of a fire extinguisher is not recommended, such as fat or oil pan fires.

- Complies with the latest European safety standard for fire blankets
- Compact size for everyday kitchen use
- Lightweight and flexible for easy handling
- Quick-release tabs for rapid deployment
- Soft PVC sleeve for space-saving storage
- Simple wall-mount installation

Typical Applications

- Home kitchens
- Flats and student accommodation
- Caravans

How it works

A fire needs three elements to keep burning: **oxygen, heat** and **fuel**. Removing any one of these will stop the fire. A fire blanket works by smothering the flames and blocking oxygen from reaching the fire so it can be extinguished safely.

Technical Specifications

General

Model:	KFB1212
Blanket size:	1.2 m x 1.2 m
Blanket Weight:	700 g
Cloth type:	Glass fiber
Thickness:	0,40 mm
Coating:	Silicone
Thread density:	20 x 10 per cm (reinforced)
Fabric weave:	Twill
Mounting type:	Metal-reinforced mounting holes
Container type:	Flatpack
Container dimensions:	200x320 mm
Weight with a container:	750 g
EAN:	0047871340361

Certifications/Approvals

EN 1869:2019

Warranty

5-year manufacturer's warranty
