

# HEAVY DUTY FIRE BLANKET

HIGH PERFORMANCE LINE | PART CODE KFB1218

COMPACT, EVERYDAY PROTECTION  
FOR COMMON KITCHEN EMERGENCIES.  
EXTRA COVERAGE FOR ADDED  
CONFIDENCE AND FLEXIBILITY.

## Product Overview

Large-format fire blanket designed to provide extended coverage in everyday home environments. The 1.2 x 1.8 m size offers greater control when dealing with small, contained fires, helping users feel more prepared in a wider range of situations. Stored in a protective case, the blanket is easy to access and quick to deploy.

- Complies with the latest European safety standard for fire blankets
- Compact size for everyday kitchen use
- Lightweight and flexible for easy handling
- Quick-release tabs for rapid deployment
- Soft PVC sleeve for space-saving storage
- Simple wall-mount installation

## Typical Applications

- Garages / Workshops / Outbuildings
- Utility rooms
- Outdoor cooking areas

## How it works

A fire needs three elements to keep burning: **oxygen, heat** and **fuel**. Removing any one of these will stop the fire. A fire blanket works by smothering the flames and blocking oxygen from reaching the fire so it can be extinguished safely.

## Technical Specifications

### General

Model:	KFB1218
Blanket size:	1.2 m x 1.8 m
Blanket Weight:	1050 g
Cloth type:	Glass fiber
Thickness:	0,40 mm
Coating:	Silicone
Thread density:	20 x 10 per cm (reinforced)
Fabric weave:	Twill
Mounting type:	Metal-reinforced mounting holes
Container type:	Flatpack
Container dimensions:	210x320 mm
Weight with a container:	1100 g
EAN:	0047871340378

### Certifications/Approvals

EN 1869:2019

### Warranty

5-year manufacturer's warranty
